The screenshot displays the SendGrid dashboard interface. At the top, a navigation bar shows the user's name 'Reuel Joshua' and a dropdown menu. Below this, a sidebar on the left lists various dashboard sections: Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, Settings, and Twilio SMS. The main content area features a 'Welcome, Reuel!' message with a sub-header 'To get up and running quickly, please follow the steps outlined below.' A prominent blue banner reads 'Send your first emails with Twilio SendGrid'. Below this, a section titled 'Create a sender identity' explains the process and provides two options: 'Create a Single Sender' and 'Authenticate a domain instead'. A diagram illustrates the sender identity as the 'from' email address. At the bottom, a 'Send your first email' section includes a lock icon and a message: 'Please create a sender identity before sending your first email.' The bottom of the image shows a Windows taskbar with a search bar, application icons, and system status information including temperature (24°C), time (10:02), and date (11-11-2022).

### Welcome, Reuel!

To get up and running quickly, please follow the steps outlined below.

#### Send your first emails with Twilio SendGrid

##### Create a sender identity

Before sending email, you'll need to create a sender identity. There are [two ways](#) to do this, but we recommend creating a Single Sender to get set up quickly and test your email integration.

[Create a Single Sender](#) [Authenticate a domain instead](#)

Your sender identity is the "from" email address your recipients will see in their inbox. [Learn more](#) about this.
